PROFESSIONAL EXPERIENCE

Elumina eLearning Pvt Ltd.

Mar 2025 - Present

L1 - Technical Support Engineer

- Currently developed and implemented automation scripts using Python to streamline the installation and configuration of Safe Exam Browser on Windows and macOS.
- Provided after-hours support to ensure 24/7 system availability and customer satisfaction.
- Replied to customer queries via email, messaging systems and support ticket platforms.
- Collaborated with teams to solve technical customer problems across product suites.

PROJECTS

1. Believe Call Taxi – a responsive taxi booking website :

[Live Demo](#)

Designed and developed a fully responsive taxi booking website with modern UI/UX using HTML, CSS, JavaScript, and Bootstrap, featuring a clean navigation bar and smooth scrolling across sections like Home, About, Team Members, Services, and Contact.

2. Shiptech - Mini e-commerce Website

[Live Demo](#)

Built a responsive mini eCommerce front-end for ShipTech, featuring product showcases, promotional banners, and a clean, modern layout. Designed sections such as Home, Featured Products, Offers, and Contact to simulate a real shopping experience. Focused on consistent design, mobile responsiveness, and visual appeal using only HTML, CSS and JS.

3. Employee Management System :

[Project Documentation](#)

Designed and implemented a real-time employee management system using MySQL. Created tables for Departments, Employees, Salaries, Projects, and Performance Reviews. Used stored procedures and triggers to automate employee data handling and performance tracking.
