PROFESSIONAL SUMMARY

Software Developer with hands-on experience building Python, Django REST Framework and Flask backends, React.js frontends, and MySQL-driven applications. Skilled in REST API design, JWT authentication, role-based access control, and relational database design. Currently pursuing MCA at University of Madras, combining academic grounding with practical software engineering experience.

SKILLS

Languages : Python, JavaScript (ES6+), SQL
Frameworks & API's : Django, Flask, REST API Design, JWT Authentication (SimpleJWT), React.js
Database : MySQL, SQLite, Query Optimization
Tools : PyCharm, Visual Studio Code, Postman, Linux(Ubuntu), Putty, WinSCP, Git, GitHub, AI Assistants.
Soft Skills : Technical Documentation, Product Support.

PROFESSIONAL EXPERIENCE

Vesoftometric Solution Pvt Ltd **Mar 2026 - Present**
Software Developer

- Developed and enhanced backend modules for a Hospital Information Management System (HIMS) covering patient records, billing, laboratory, and pharmacy operations.
- Designed and maintained RESTful APIs and database-driven features using Python, Django, and MySQL.
- Implemented bug fixes, performance improvements, and new functionality based on user and business requirements, collaborating directly with stakeholders.

Sarvesh Software Solutions **Sep 2025 - Dec 2025**
Software Developer Trainee - Internship

- Built traceability software integrating real-time data from PLC (Programmable Logic Controller) machines into a centralized database.
- Automated data-processing workflows using Python to improve system efficiency and reliability.
- Collaborated with a cross-functional team to troubleshoot and enhance automation workflows.

PROJECTS

HMS Pro — Full-Stack Hotel Management System

- Architected a full-stack hotel management platform with modules for room management, reservations, billing, food orders, inventory, staff, and asset management.
- Built a live operations dashboard with date-filtered reporting and auto-refresh polling; developed an inventory module with stock tracking and purchase order workflows.

Tech Stack: Python, Django REST Framework, React.js, MySQL, JWT (SimpleJWT), Zustand

Speech-to-Text & Text-to-Speech Desktop Application

- Developed a desktop application that converts speech to text and text to speech through an intuitive Tkinter-based user interface.
- Integrated OpenAI Whisper for accurate speech recognition and transcription from audio files and microphone input.
- Implemented pyttsx3 for offline text-to-speech conversion with configurable voice selection and speech rate.

Tech Stack: Python, Tkinter, OpenAI Whisper, pyttsx3

EDUCATION

MCA (Master of Computer Applications) **2025 - 2027**
University of Madras (Ongoing)

BCA (Bachelor of Computer Application) **2021 - 2024**
Pachaiyappas College for Men (Chennai) ; 77 %

CERTIFICATIONS

Python Full Stack Development Training at Besant Technologies. **Aug 2024 - March 2025**
Claude Code in Action - Anthropic. **Feb 2026**
Spoken English & MS office Training in Magic Bus Foundation. **Apr 2024 - Jun 2024**
